## The Open Road

Catherine Smiley provides with a review of the Laser Tag gathering. I know from experience that those attending had a lot of fun. Laser Tag is a great way to exercise and let off steam. I am hopping that this will be returning again.

The planning for the driving tour to Mon Ami is almost done. The route will change a little to keep the scenery fresh. The tour will start at Fort Meigs again this year and will follow some of the best driving roads in this part of the state. Of course it ends at Mon Ami Restaurant and Winery near Port Clinton where we will gather and introduce the club to the new members in attendance.

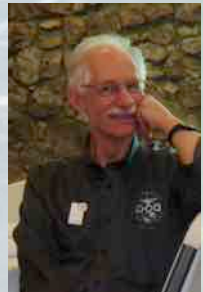

Following the Mon Ami brunch in one short week will be the Kentucky Derby party at Porsche of Ann Arbor. Kim and her crew are putting together a fun selection of activities leading up to the running of the Kentucky Derby. During the pre derby time there will be chance to pick your favorite horse to cheer on while watching the race.

While not actually MVR PCA activities, the monthly Cars and Coffee gatherings are back. These

gatherings give us a chance to get to know other car enthusiasts and check out cars we may not normally see. The dates are listed in our calendar on page 15.

Remember that you can always find up to date information on the Region and the upcoming events by checking the Region web page at [mvr.pca.org](http://mvr.pca.org).

One final note is a reminder that the club is “fueled by volunteers.” We are always looking for help in planning or staging our events. If you can support in any way, let Todd or one of the other officers know. Your help will be greatly appreciated.

Flash your headlights at a fellow Porsche owner on the road!! Keep the kindred spirit alive!!

.....the editor

## From The Podium

*By Todd Mierzwiak*

Spring must be officially here because over the past few days I've seen lots of nice antique cars, some exotics & many muscle cars out on the roads.

Last weekend was the first outdoor Cars & Coffee of the season. About a hundred cars were there along with plenty of people who came out to see the nice iron. With the gorgeous 70 degree sunny day everybody was looking for an excuse to get their "toy" out for the first spring event of the season. I committed heresy & instead of getting one of the Porsches out, I decided to get my 2008 Subaru WRX STI out & enjoy its own boxer engine rumble albeit a 4 cylinder one. I bought this car as a secondary track car along with being a fun second daily driver in the summer months.

The DE season is gearing up in full strength with lots of events at nearby tracks including Mid Ohio, Putnam Park & Grattan Raceway. Mike Valentine & Barney Stewart will be attending an instructor school down at Putnam Park next week to be earn their instructor wings. I already have four HPDE events on the schedule through July & I'm sure there will be a couple more scattered throughout the season. Slowly but surely our HPDE at Grattan is filling up with participants. The event is at the

end of July & if you haven't done a DE in the past, you should consider it. The ladies are excited that we are offering a ladies only day on that Friday. Please talk to any of us if you have questions or if you need help signing up at [ClubRegistration.net](http://ClubRegistration.net).

I was speaking to Diane Schoen this afternoon about some things & I would like to give her a shout out to say congrats. For those who don't know this, Diane has been juggling a full time work schedule driving to Lima every day as a nurse anesthetist. In addition, she is getting her doctorate so that eventually she can go into teaching. She is only a few months away from graduating.

For those who don't know it, Sarah & I started raising bees last April. We started out with two hives & they took off throughout the summer months. We decided to add one additional hive & this past weekend, got everything ready for the third hive that will be arriving in about another week or so. Just in time for the plants to start blooming.

Lastly, I wanted to mention that we have some fun events coming up soon. The first is our annual drive to Mon Ami over in Catawba for brunch on Sunday April 30. Next is our Kentucky Derby party up in Ann Arbor at Porsche of Ann Arbor. Please mark your calendar for these events.

Todd

## Zombie Apocalypse - No Survivors!

by Catherine Smillie

A small stalwart group of MVR PCA members along with sons and daughters assembled at Funagin's on Saturday afternoon March 18, 2017 with some apprehension but also eagerness to demonstrate their shooting skills. There was even a little trash talking from certain competitive members.

The adventure began when the group was led into a darkened room where instructions and warnings were given. Anyone running, kicking, screaming, or misbehaving would be ejected. We all had our suspicions on who in the group may stretch those rules! There was a little confusion and discussion in the equipment room but we finally figured out the front from the back of the suits.

The first game was regular laser tag and the group was divided into two teams with the red entering to the right and the green to the left. War was declared and the shooting began. Members of the group could be seen almost running around walls, obstacles, a bridge and small caves zapping the opposite team and occasionally their own. Once hit there was a brief waiting period before the weapon was again usable. There were recharging stations if they could be found within the maze. No one escaped unscathed and when time expired the group proceeded to the common area to review and revel or groan at their scores.

The second game was the much-anticipated zombie laser tag. Three

*(Continued on page 8)*

*(Continued from page 7)*

intrepid volunteers were dispatched into the war zone followed thirty seconds later by the remainder. There the three zombies chased, tricked and ultimately converted the remainder into living-dead.

Following the game and discussion over the scores, reactions were mixed over which game was the most fun. Overall the majority preferred the first game citing more

action and moving parts to it but there was unanimous agreement that the event was fun and a success.

Happily, this writer can report that all participants survived, enjoyed and returned to normalcy in time to enjoy dinner at the Grape Leaf Diner.

## Technical Q and A

By PCA Technical Committee

---

Taken from PCA Tech Q&A

Edited and Compiled by Mike Valentine

### **2003 Boxster will, at times smoke when first started – 84,000 miles**

**Question:** My 2003 base Boxster started smoking for a moment when I start the car the first time. IT does not do it every start and, when it does, it is only for the first second the car starts.

**Answer:** Submitted by Pedro Bonilla. Boxster smoking at startup generally means that a bit of oil has passed into one of the cylinders. Since these engines are flat, every now and then a droplet of oil can make it past the rings creating a large cloud of white smoke. If this happens sporadically (once or twice per year) it's normal. If it happens regularly then most likely the AOS (Air/Oil Separator) needs to be replaced. The AOS is a wear item that lasts 50K - 100K miles.

### **993 Engine Check Light – 1998 911 Carrera Cabriolet**

**Question:** I have just joined PCA and know there has been much correspondence in the past regarding the dreaded CEL light. Every year I dread the smog test and spend money to get a mechanic to "turn off" the light for a few miles of relief only, during which I rush to the smog station. Many mechanics and dealers and dollars later I am so worn out by this cycle that I am even thinking of selling -- although I can't sell it with the CEL on! There has never been a problem showing with the diagnostics and they say there is nothing to fix. How do others deal with this in order to keep the light off and/or to sell their car? Help!

**Answer:** Submitted by Anthony Callas. WELCOME! Anytime there is an illuminated check engine light, there is an associated fault code(s). I usually perform a Controller Interrogation with a factory tester, this being with either the PST-2 (Porsche System Tester-2) or PIWIS-1 (Porsche Integrated Workshop Information System) for the 993's, retrieve the faults and follow a proper diagnostic routine for each fault. Sometimes faults can be related and/or from the same issue so careful examination is needed to determine exactly what the next action should be.

I'm curious what your fault codes are, send them to me so I can let you know what steps I would take next. Maybe we can get to the bottom of your issue so your automotive stress is minimized AND maybe you'll even keep your Porsche, because the 993 is one of the best Porsche's ever built!

*(Continued on page 19)*

*(Continued from page 18)*

## **Random Engine Hesitation – 1984 944**

**Question:** First, thank you for all your help with the previous questions answered on similar engine situations. Here is the problem. The 944 engine hesitates about once a month. It is my daily driver. When the hesitation begins, I have noticed the occurrence during the morning, at acceleration from a standstill and continues for about 20-30 seconds. The engine is unable to move beyond 2200-2600 RPMS. The hesitation eventually disappears and driving resumes to normal until another month from now. I do have a Porsche mechanic and he has done the following:

1. Complete tune up (all plugs, hoses looked good or were replaced).
  2. Replaced ENTIRE fuel system (fuel pump, filter, hoses, etc).
  3. New oxygen sensor.
  4. Replaced DME.
  5. Cleaned TPS.
- The fuel used is always the same brand and quality.

Are there any other areas that should be checked?

**Answer:** Submitted by George Beuselin. The issue here is less that you have a problem, but more that you have an intermittent problem. It is the randomness of the problem that is making the diagnosis difficult. If you cannot diagnose the problem while it is happening, you are left to throwing parts at the problem, which process you have already begun.

There seems to be two parts which you have not yet thrown at the problem: First, the Air Flow Meter, which can, over time, develop a wear pattern on the circuit board inside the meter, causing flat spots, which sounds a little bit like your problem the AFM, however doesn't explain why it only happens once a month in the morning. That said, it's worth a look. The second part is the DME/ECU itself. The ECU (I'll call it that despite its official name as DME (to avoid confusion with the DME relay)) contains 99 percent of the electronics to make the 944 function. It could be that there is an intermittent cold solder joint or other problem that is causing your problem.

My advice to you at this point is to find a PCA friend who has the same early 944 (1983 to 1985/1) as you do, and swap the ECU from one car to another and run them for a while. If you continue to have the problem with his ECU in your car, then it wasn't the ECU. Swap them back and then do the same with the AFM. The swap procedure for either part takes about 10 minutes' max, and will not cause damage to your friend's car or your own.

With a lot of patience and a bit of luck, you can figure out what you will need to make your car as good as new.

## Around the Zone

*By Michael Soriano, Zone 4 Representative*

Greetings PCA  
Zone 4 Members,

Before all of our  
regions' driving  
seasons began, it  
was time for us to  
hold our annual  
Zone 4 Presidents'  
and DE Meetings.

This year we were  
joined by National President Caren  
Cooper as well as several other  
members of the National Staff. The  
meetings comprised a weekend full  
of activities which began on Friday  
night with a Welcome Dinner at  
Zia's located at the Docks at  
International Park, where we were  
given the use of their private dining  
room. The next morning started  
bright and early with the Presidents'  
Meeting. Attendees had the  
opportunity to win some fantastic  
prizes generously donated by the  
organizers of the Detroit Belle Isle  
Grand Prix, Racer Parts Wholesale,  
TireRack, Griot's Garage, and PCNA.

I am pleased to  
announce that every  
region within Zone 4  
was represented, with  
most regions sending a  
number of members, as  
we filled the ballroom  
at the Maumee Bay  
Resort. The afternoon  
session consisted of  
several presentations  
including a Social  
Media Webinar, Parade,  
and an important

presentation by National Driving  
Tour Chair Greg Halverson. After an  
informative and enlightening day of  
interactive discussions, many of us  
went out to enjoy an evening of  
dinner and entertainment in our  
own private VIP area at the  
Hollywood Casino for some social  
playtime. Sunday's meeting was  
dedicated to addressing DE  
questions and concerns led by John  
Krecek, a member of the National  
DE Committee. A great deal was  
accomplished during these  
meetings. Most importantly, I  
wanted this weekend to be a  
balance of productive discussion  
and education as well as a chance  
for us to socialize and bond through  
fun, light hearted activities thereby  
promoting my main theme for the  
weekend, which was to encourage  
all of us to join forces and come  
together in order to enhance our  
ability to work as 1 cohesive Zone  
thus providing even more  
opportunities for our members to

enjoy the camaraderie  
that PCA offers.

I recently attended  
Northern Ohio Region's  
New Member Party held  
at Porsche of  
Beachwood. Nearly 200  
members were treated  
to an amazing display  
of cars which included a  
918 and two 911R s,  
while dining on a

(Continued on page 21)

(Continued from page 20)  
fantastic buffet dinner. During the evening, the region awarded 1 lucky new member with a free DE, and I had the honor of recognizing Robert Frye for his 50 years of membership in PCA by presenting him with several items from the region and National.

There are a number of wonderful events taking place this year throughout the zone. Please continue to check the master calendar, which is posted on the events page of the Zone 4 Website, <http://zone4.pca.org>, as well as your local region's website and newsletter for the latest details on the many events close to you that are being planned. Also, consider attending other regions' events, such as:

- May 5-7 is MORPCA's Club Race and DE at Mid-Ohio Sports Car Course
- Western Michigan Region's New Member Gathering at Porsche of Grand Rapids is May 6
- May 6 is Central Indiana Region's 1st Saturday Breakfast at Eva's Pancake House in Muncie
- Join Maumee Valley Region on May 6 for a Kentucky Derby Party at Porsche of Ann Arbor

- May 12 is Ohio Valley Region's Annual Charity Wine Tasting and Member Social
- ARPCA's Meguiar's Car Detailing Session at Fowler Automotive is May 13
- May 16 is Rally Sport Region's Beginner's Track Day at Waterford Hills
- Motor-Stadt Region's Autocross Practice is May 20 at Spartan Speedway
- May 20 is Michiana Region's first Autocross of the year at The Tire Rack
- Eastern Buckeye Region's Dinner Drive to Raven's Glenn is May 20
- May 21 is Northern Ohio Region's Autocross at Rolling Acres Mall in Akron
- Southeast Michigan Region's Waterford Family Day at the Races is May 28

I look forward to having the opportunity of meeting each and every one of you at events throughout the upcoming year. Please feel free to contact me at [MSoriano.ZoneRep@gmail.com](mailto:MSoriano.ZoneRep@gmail.com).

Thanks,  
Michael

# Take charge of your dream for a confident retirement.

The American dream is of a better future. I'm dedicated to helping you keep that dream alive. By listening, planning, working with you one-on-one. I'll help you build a plan to retire your way, with confidence. Call me today at 419.843.3840 to get started.

mobile paint chip & scratch repair

The results of our work are extraordinarily fine.

We are exclusive in using the proprietary system created by Dr.ColorChip.

This system is the most effective to repair paint chips, road rash and minor scratches/abrasions.

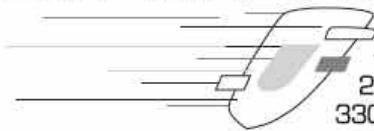

We guarantee our work will return the look of your car to "that look" you saw when you bought it.

Always choose an expert! I only charge for what I can fix.on most cars repaired at your garage or mine

I charge between \$75.00 and \$175.00.

CALL NOW 419-705-2823 to get your 10% discount
